Re: Dr Schutz Floor Finish

I am writing this letter in response to the use of Schutz Floor Finish products on Earthwerks Luxury Vinyl Tile and Plank. We have reviewed the Waxnomor, Slipnomor, and Marknomor Floor Finish product data and MSDS sheets, and tested the product in the field and have found it to meet Swift-Train/Earthwerks standards. While Swift-Train/Earthwerks does not endorse the use of any particular floor finish, it has been determined that the Schutz Floor Finish products are acceptable for use on our products.

It is the responsibility of the End-User to maintain the floors according to the specific directions of the Schutz product instructions once the product is applied. Swift-Train/Earthwerks does state in printed maintenance recommendations that the flooring must have an adequate floor maintenance program in affect at all times to prolong the life and use of the floor. Earthwerks does not require the use of a floor finish. The above mentioned products can be used based on the end user requirements and jobsite environment.

Thank you,

Robert Thomas
